Low Vision Store  
Product Catalog

**The Lighthouse for the Blind, Inc.**

2501 S. Plum Street • Seattle, WA 98144  
LHBlind.org • (206) 436-2228

## Lighthouse Low Vision Clinic and Store

Our **Low Vision Clinic** located at 2501 S. Plum Street in Seattle serves people residing in Washington state. The Lighthouse Low Vision Clinic offers functional vision assessments by a residency trained optometrist who will work with you to maximize your vision and function to perform daily living tasks. A low vision therapist will work with you to ensure you are comfortable and confident with the prescribed aid and technique.

The **Low Vision Store** is co-located with the **Low Vision Clinic**, where you can purchase the equipment you need for living an independent life. Here is a sampling of the products our store carries:

- High-powered reading glasses
- Handheld and stand magnifiers, as well as electronic magnifiers
- Talking watches and clocks
- White canes for safe and independent travel
- A variety of adaptive aids for the kitchen and other in-home areas
- Quality sun glasses/glare protection
- Task lighting
- Large button telephones, remotes, recorders

For more information about our Low Vision Store please visit [LHBlind.org](http://LHBlind.org), or to make a phone order, call (206) 436-2228 to speak to a representative.

- Input: 9VDC, 2.66A max load

**\*To prevent condensation, do not use the unit for 1 hour after transporting the unit from extreme cold to room temperature.**

**\*\*All times listed are approximate. Actual charging and usage times may vary depending on the life cycle remaining on the battery, LCD brightness setting and other variable factors.**

## Compact 10 HD w/Speech

### Description:

*With its large 10" screen, customizable features, intuitive operation, and full page Text-to-Speech, the Compact 10 HD Speech offers all benefits of a desktop video magnifier, but in a much smaller, foldable, and portable design.*

*The Compact 10 HD Speech magnifies newspapers, letters, and magazines for viewing of text, pictures, and other details. Its purposely designed swing-out arm opens a whole new range of possibilities. It allows the Compact 10 HD Speech to capture full-page documents and then read them to you with one press on the touchscreen. A convenient indicator at the foot of the Compact 10 HD Speech tells you exactly where to place the document you want to read. Just place the document, take a snapshot, and relax while the Compact 10 HD Speech reads text to you.*

*With the arm unfolded, you can also look at photos, view packaging and product labels, and read round cans, all while holding objects naturally in your hand. The arm even allows you to write your signature and finish crossword puzzles.*

*The Compact 10 HD Speech has a large, high definition 10" touch screen. With over 50% more screen area than 7" units, you can fit more text on the screen, allowing you to read faster than you could with smaller magnifiers.*

*For quick reading tasks, the Compact 10 HD Speech is there for you. It wakes up with one press of the power button and is ready, just like your phone.*

### Retail Price:

**\$1,595.00\***

**SKU: VIS111720**

*\*Shipping and handling included in price*

## Features:

- View and magnify text, objects and photos
- Text-to-Speech: listen as the Compact 10 HD Speech reads full pages of text to you
- Wakes with one press of the power button and is ready when you need it
- Over 50% more screen area than 7" units allows more words on screen
- Customizable, high contrast touch screen buttons
- Easy and advanced modes:
  - Easy mode hides advanced controls, showing contrast and magnification only
  - Advanced mode shows additional functions like the menu, clock, and extra options
- Switch back and forth between the two modes
- 3 cameras
- Reading camera for documents at a table or desk
- Swing-out full page camera for full page Text-to-Speech and placing your signature
- Overview camera for seeing objects and text from a short distance
- Convenient indicator that helps you align full page documents perfectly below the swing-out camera
- Clock function
- Save snapshots

## Product Specifications:

- Large 10-inch high brightness touch screen
- Continuous zoom: <0.5x to >22x times magnification
- 3 high definition 13MP auto-focus cameras for reading, full page, and overview
- High contrast semi-colors for easier reading (set up to 4 combinations from a possible choice of 16)
- Reversible USB C connector for charging
- Rechargeable battery offering approximately 3.5 hours continuous use
- Dimensions: 261 x 189 x 36 mm / 10.28 x 7.44 x 1.42 in
- Weight: 915 grams / 2.02 lb

## Lilly 3.5 HD Handheld Video Mag

### Description:

*This pocket-size electronic video magnifier is designed for people on the go! The 3.5" high definition viewing screen on the Lilly HD is perfect for small reading tasks. Read price labels, restaurant menus, medicine bottles, receipts and more! Because the Lilly HD is small and only weighs 1 pound, it easily fits in a pocket or purse so you can take it everywhere you go.*

*The Lilly HD features a high-definition camera, meaning you get a crisp and clear image. Simple tactile controls on the front surface let you change colors, zoom in and out and a shoulder button lets you take a picture. Regain your independence outside your home with this convenient little travel companion!*

### Features:

- 2x-24x continuous magnification
- 15 high-contrast color modes
- Foldable writing or reading stand – complete forms, sign checks and more!
- Lay-flat reading – slide across reading material for easy use
- Large buttons for easy navigation
- Lightweight – less than 1 pound!
- Rechargeable/user-replaceable battery offering 3.5 hours of continuous use!
- Stylish carrying case and wrist strap

### Retail Price:

**\$235.00\***

**SKU: IRI112520**

## Looky 4+

### Description:

*Quickly and easily enlarge and enhance text, photographs, and more with 4.3" TFT HD screen. Features 2 LED lights for low-light illumination, and an easy-to-use touch-screen interface for instant and precise adjustments. Touch control eliminates cumbersome buttons and allows for quick and easy adjustments on the go. Simply slide your finger up or down on either side of the screen to adjust magnification, slide your finger up or down in the middle of the screen to adjust contrast, or simply touch the screen to readjust the focus of the camera.*

### Features:

- 2x to 20x magnification
- Screen resolution 720p Full HD
- 12 display modes (including full color, black on white, white on black and several high contrast options)
- Freeze function that can be zoomed and panned
- Reading lines
- Horizontal and vertical masking
- Storage for up to 20 images
- Output for TV or external display
- Built-in ergonomic handle doubles as reading/writing stand, angled for comfort and stability.
- 4.5"L x 2.95"W x 1.8"H, 0.66 lbs.

## Ruby XL HD

### Description:

The all-new **RUBY XL HD** puts crystal clear, high-definition magnification in the palm of your hand. The slim RUBY XL HD goes anywhere with you, while the five-inch screen brings out even the finest details. You can magnify materials up to 14 times – books, photographs, newspapers, medications, labels, and more. The RUBY XL HD is easy to learn and to use, whether at home, in the office, or on the go. It snaps open to hold the screen at a natural angle, sliding effortlessly across a document as you read. Color-coded tactile buttons make it easy to adjust magnification, select the color mode, or add a reading line or masks. The convenient fold-out handle has two positions for a firm and balanced grip while reading packaging labels or prescription bottles. The RUBY XL HD is available in two models: RUBY XL HD and RUBY XL HD+\*. RUBY XL HD is offered in traditional red with color buttons. RUBY XL HD+ is offered in gray with high-contrast, black and white buttons.

## Reizen Talking Radio Controlled Watch Stainless Steel

### Description:

*Sleek, stylish stainless-steel watch with great features for the blind and low vision at an affordable price! In the USA, the Reizen Talking Radio-Controlled Analog Watch receives a daily signal from the NIST Atomic Clock in Colorado, the nation's timekeeper, ensuring accurate time and even accounting for Daylight Savings changes - so you never have to set it! Time is announced at the simple touch of a button. A second touch of the button gives you the day of the week and the date.*

*Note: The radio-controlled function will work only in the USA (except Alaska and Hawaii), UK, Germany, and Japan. When outside these areas, the watch can be set manually to reflect the correct time on the analog face, but the announced time will not be accurately updated.*

*Pictured above: men's watch (left) and women's watch (right)*

### Retail Price:

**\$59.95**

**SKU: REI121521**

## Eschenbach Mobilux Hand-held Magnifier

### Description:

*The Mobilux® series of illuminated hand-held magnifiers feature bright LED illumination. SMD LED (light emitting diode) illumination provides an alternative light source preferred by many patients due to its distinctly whiter spectrum and longer useful life. In addition to the bulbs offering nearly unlimited life (50,000 hours!), the batteries last 5 times as long as when used with incandescent bulbs. To soften the color of the light, small snap-on filters are included with each magnifier to provide 3 different illumination options.*

*All of the Mobilux® LED hand-held magnifiers include a comfortable, ergonomic handle with a large, easy-to-operate ON/Off light switch, a battery compartment that uses high quality springs that makes changing the batteries easier (2 AA batteries included) and a slip-on protective case.*

*Mobase stands allow for the Mobilux® LED hand-held magnifiers to be used as a stand magnifiers and can be used for hands-free tasks when in the upright position. Available in a round and square lens.*

## easyPOCKET 8D/3X

### Description:

The easyPOCKET features a unique 50x46mm aspheric / diffractive hybrid lens that is distortion-free and extremely thin (only 3 mm). Bright illumination is provided by SMD LED technology, with bulbs that never need to be changed. Plus, with a built-in sensor, the light conveniently goes on and off when the magnifier is opened and closed.

The easyPOCKET lens is protected by a strong glass-fiber reinforced plastic case that minimizes scratching. Patients can choose between either a silver, blue or black case. They are perfect for patients looking for a small, illuminated magnifier that is easy to travel with and use in restaurants and other dimly lit locations.

### Product Specifications and Features:

- Magnification: 3x / Diopter: 8D
- Illumination: SMD LED
- Lens Type: Aspheric/diffractive hybrid
- Power Source: Flat button battery CR2025
- Accessories: Glass fiber-reinforced plastic case

## VisorLIGHT for OptiVISOR

### Description:

*VisorLIGHT is a unique lightweight battery-powered light that illuminates a magnified viewing area. It easily clips onto the visor of most headband binocular magnifiers. The light adjusts up or down to ensure that maximum light is on the work area. Two models are available to allow complete mounting: LT-06 with a 10" short cord for mounting on a headband and LT-42 with a 42" long cord so the battery pack can be worn on a belt or placed in a pocket.*

### Product Specifications and Features:

- Hands-free light
- Xenon laserbeam bulb
- 6000 candle power
- Four to five hours battery life (continuous use)
- Model LT-06: 10" cord
- Model LT-42: 42" cord
- Operates on two AA batteries (not included)

### Retail Price:

## Digital Talking Thermometer

### Description:

*ThermoWorks Super-Fast thermometer technology is employed in the reduced-tip probe for readings in only \*5-6 seconds. Simply turn the thermometer on, insert the probe tip in a food portion or liquid, wait just a few seconds, then press the button to hear the temperature in a clear (female) voice. A recessed button on the back will change the scale from Fahrenheit to Celsius. Use the built-in eyelet at the top to hang the thermometer within easy reach where you normally use it. The thermometer body is contoured to comfortably fit the palm of your hand.*

*The Digital Talking Thermometer is suitable for the sight impaired with partial or full vision loss. For the sighted, the large 3/8" digits are easier-to-read. Even those that can see the display need not take their eyes off other tasks if they can simply push the 'Talk' button to tell them the temperature. Press it again and again to update the status of changing temperatures. The ThermoWorks Digital Talking Thermometer is a tremendous aid in food preparation, general household use or even scientific and industrial applications.*

### Product Specifications and Features:

- Big LCD digits
- Hanging clip
- 0.1 degree resolution
- °C/°F setting on back
- Range: -58 to 572°F (-50 to 300°C)
